

JOINSIL™

Join Leader Chemtech Pvt. Ltd.; a JV of two professional companies with vision of taking the adhesive & sealant industry to new heights in Subcontinent. Highlighting our motto of "We Develop the Future" a team of dedicated professionals and visionary Leadership. Join Leader provides innovative & cost economic solutions to varied customer needs. Join Leader is a house of technology partnership with the customers and employees.

About Us

Join Leader is a leading professional Manufacturer & Marketer of quality adhesives and sealants with presence in 39 countries around the globe. With decades of R&D, we provide products, services and solutions to meet the ever-increasing demand in Construction, Industry, Automobile, Marine, Rail, DIY and other areas.

Join Leader is a quality management system ISO 9000-2000 Certified Company, committed to deliver value to our customers with the best knowledgeable people and the best technology. Besides the headquarters in Hangzhou, Join Leader sets up branches in Shanghai, New Delhi (India), Mexico, Hongkong etc. to reach the customer more closely.

Our mission is to be a worldwide leading manufacturer and marketer of technology-driven specialty chemical products, services and solutions.

**ACRYLIC SEALANT
JOINSIL 330**

Description: JOINSIL 330 is low modulus acrylic sealant. It offers flexible and resists cracking, paintable, use friendly-clean up with water. It is used for sealing gaps and cracks prior to painting; perimeter sealing around window frames; etc.

Characteristics:

- One part; ready to use
- Odorless
- Paintable

Available Packing:
300ml cartridge

Available Colors:
White & Gray

**MULTIPURPOSE NEUTRAL
SILICONE SEALANT
JOINSIL NP**

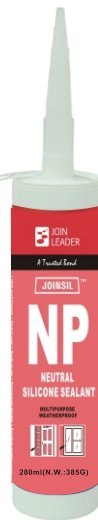

Description: JOINSIL NP is a one part, middle modulus, neutral curing at room temperature. Excellent adhesion and sealing for most building material. Offer a lasting weatherproof ability. Noncorrosive to metal, brick, concrete.

Characteristics:

- One part; ready to use
- Neutral cure
- Multipurpose

Available Packing:
280ml cartridge

Available Colors:
Transparent, grey, black, white, brown, silver grey, etc.

**GENERAL PURPOSE (GP)
SILICONE SEALANT
JOINSIL 600/JOINSIL1018**

Description: JOINSIL 600/JOINSIL1018 are low modulus silicone sealant with excellent tensile adhesion for sealing and bonding. It offers good weatherability unaffected by sunlight, rain, snow and UV lighting.

Characteristics:

- One part; ready to use
- Acetoxy cure
- Multipurpose

Available Packing:
280ml cartridge

Available Colors:
Transparent, grey, black, white, brown, silver grey, etc.

**WEATHERPROOF SEALANT
JOINSIL 800/880**

Description: JOINSIL 800/880 is a middle/low modulus and neutral curing perature silicone sealant. it offers outstanding weatherproof ability, excellent tensile strength and good adhesion to most building materials. it is used for weather resistance sealing for various glass curtain walls and seam sealing for aluminum profile etc.

Characteristics:

- One part; ready to use
- Neutral cure / non odor
- Excellent weatherproof ability

Available Packing:
300ml cartridge or 600ml foil sausage

Available Colors:
Black, white, grey, etc.

**JOINSIL 180 NON-STAINING
SILICONE SEALANT**

Description: JOINSIL 180 is one part, middle modulus and neutral curing under room temperature, excellent adhesion to stone, marble, ceramics, cement brick ,aluminum, most metal and plastics, widely used for stone curtain wall. Non-staining on natural stone and reduces residue rundown on metal and glass panels; Outstanding UV and weathering resistance; Excellent unprimed adhesion to masonry, concrete substrates

Characteristics:

- Neutral cure / non odor
- Non-staining
- Permanently elastic

Available packing:
300ml cartridge or 600ml foil sausage

Available colors:
Black, white, grey and etc.

Join Leader Chemtech Pvt. Ltd.

**STRUCTURAL GLAZING
SILICONE SEALANT
JOINSIL 990/998**

Description: JOINSIL 990/998 are high performance silicone sealant for structural glass assembly. It offers excellent adhesion for sealing glass, stone, aluminium panel curtain, wall, secondary sealing of insulating glass and other most common building materials.

Characteristics:

- JOINSIL 990 one part; JOINSIL 998 two part
- Neutral cure / non odor
- Strong bonding

Available Packing:

JOINSIL990: 300ml cartridge or 600ml foil sausage

JOINSIL998: part A:190L /drum, part B: 20L/drum

Available Colors:

JOINSIL990:Black
JOINSIL998: PartA-White, Part B-Black

**SILICONE SEALANT FOR AQUARIUM
JOINSIL 688**

Description: JOINSIL 688 is middle modulus structural silicone sealant aquarium with high tensile strength and good adhesive to aquarium. It can be used for glass wall, skylight by polycarbonate sheet, plexiglas, coated glass and mirror, etc.

Characteristics:

- One part; ready to use
- 100% Silicone Rubber
- Non toxic
- Acetoxy cure
- Long-lasting bond/strong bonding

Available Packing: 300ml cartridge
Available Colors: Transparent
